The horoscope analysis will cover lifespan, business and lucky lottery numbers. In analyzing your life energies, you can expect to live to the age of 87 years old. The outlook on your health seems very promising as well.

You can expect to have 3 children with the strong possibility of more. Your personal characteristics point to a man who is financial sound. You have the makings of a good businessman, and this is also reinforced by the name that has been given to you. The name of your restaurant is also very positive and promising.

Your lucky lottery numbers are as follows:

For Super 7 add the number 13 to any of the above combinations.

In order to increase the health of your business I will make Shakthi Thabees for you. They consist of 3 Thabees that I will puja or place my blessings on. One Thabees will have to be buried in the front of your business in the earth. The second Thabees will be buried in the back of your restaurant or in a flower/plant pot inside. The third Thabees will remain in your cash register. Once you have done completed these steps your restaurant will begin to prosper. You will also need to advertise in the local newspapers and in community newspapers. The Shakthi Thabees will ward off evil influences and spirits away from your place of business to ensure its prosperity.
